

# TYWARDREATH & PAR PARISH NEIGHBOURHOOD PLAN

## **Are you interested in Heritage and the Environment?**

An important element of the Neighbourhood Plan is a Landscape Character Assessment. The objective of the assessment is to identify the different elements which make up the landscape and character of the parish, where they are and what they contribute to the overall setting. This will involve assessing the whole parish on a field by field, road by road basis in a formalised way. It will provide the basis for developing policies to preserve the character of the community and for assessing the impact of any proposed developments on its character. It will also provide a valuable historical record of the village at the present moment of time.

In order to ensure that this work is carried out in a systematic and uniform manner, we have arranged for specialist officers from Cornwall Council to provide training to those taking part within the next couple of months. With a parish the size of ours, this will involve a fair bit of (leisurely) field work and we would welcome participation from anyone who is prepared to help, even for a few hours over the next few months. For anybody with an interest in the parish this should be a thought-provoking and informative exercise which may well bring them to see the parish in a new light. We are asking anyone who might like to take part in the assessment to contact David Hughes (01726812982), so that we can provide more information.

## **Business and Employment Survey**

We have heard the views of local people in the parish of Tywardreath and Par.

We are now inviting the Business Community to tell us how the Neighbourhood Plan might support and develop business locally. Please help us do this by completing the short survey on the Business and Employment website @
