

TYWARDREATH & PAR PARISH NEIGHBOURHOOD PLAN

**Residents' Questionnaire Prize Draw
S. Higgins of Tywardreath won £50.00**

Neighbourhood Plan (NP) News

The NP process is a long one....but we are getting there!

We are busy putting together the evidence from all the surveys and consultation events. We will use this to draft the policies for shaping development in the parish: policies linked to Planning, Housing, Environment, Flood Risk Management, Heritage, Business and Employment, Transport, Accessibility, Health and Wellbeing. We are also still out and about, listening and discussing ideas. There is usually a Steering Group member in Cornubia Hall, Par on Tuesdays, 10.00 am – 1.00 pm. We will be at the Big Lunch, Par Track on Sun 9 June 2019, 12.00 pm – 4.00 pm.

Working with St Blaise NP Steering Group

On the map, we live in two different parishes and there will be two different Neighbourhood Plans. But in reality we all live in PL24, so St Blaise Steering Group and we in Tywardreath and Par Parish are working together. For example, both of us are talking with the Environment Agency and Cornwall Council on Flood Risk Management policies. We are sharing ideas and information, so that between us we come up with Neighbourhood Plans which will benefit **both** communities.

It is good to see that where Neighbourhood Plans have been adopted, they are now being taken seriously. One of our Steering Group members was delighted to be sitting in the Council Chamber when St Mewan challenged a planning application on the grounds that it was not in line with their NP and the planning committee agreed.

Coming soon..... our newly updated and re-organised website

It has taken a while to find someone to update and re-organise the NP section on the Parish Council website. But this is now happening, so look out for this later in June.
