#### **22/53 Public Questions**

A member of the public queried the status of the defibrillator in the village and explained that when trying to use it recently he had encountered huge problems as the telephone number needed to access the code had not been answered. It appeared that the unit had originally been installed by the Village Fete Committee. Cllr L Phillips stated that she would see Norman Trebilcock, who had been involved with the installation, on Sunday and would see what she could find out. Cllr C Wildish would also try to ascertain the position. A member of the public addressed the meeting about Par Beach in respect of, *inter alia*, seaweed, general tidiness/cleanliness and, particularly, the attitude of irresponsible dog owners, including the issue of dog fouling. She explained that she had started a petition to request that Cornwall Council address these issues as she considered that the beach should return to being the family friendly place it was in the past. Cllr Wildish explained that any decisions made about the beach rested with Cornwall Council, the owners, although members agreed that the attitude of some dog owners was regrettable. The Parish Clerk suggested that it may be appropriate for the Parish Council to discuss this issue as an agenda item in the future, perhaps when it was known how much support the petition generated.

It was proposed by Cllr Hughes, seconded Cllr L Phillips seconded and RESOLVED that the minutes be approved and signed off by the Chairman.

**22/56 To receive the Cornwall Councillor's Report**

Cllr Virr had supplied the following report.

St Andrew's Road The second phase of works to St Andrew's Road will commence next week – the two sections at either end of the road will be completed, along with works to the pavement and drainage inspections. This is in advance of the road closure on Par Green and diversion through St Andrew's Road.

Tywardreath Hill A licence for the testing of the soil nails has this week been agreed with the Council and property owner's lawyers, and is now in place following successful sign-off by both parties and the property owner. This enables Highways to progress with organising for the testing of the soil nails, to inform the final design for the support system for the retaining wall.

Tywardreath 20mph Limit The final installation phase is awaiting the arrival of the signs before the works commence.

Damaged Goal Posts Poldrea I continue to chase Cormac for the repair of the damaged goal posts (by another contractor).

Grass Cutting Poldrea I received a complaint about the incomplete grass cutting at Poldrea. This is due to the council's environmental policy of leaving some sections of long grass to promote wildlife. I support this approach and we all need to adjust to seeing our green spaces promoting wild flowers and supporting both flora and fauna.

Community Network Highway Schemes The Par 20mph scheme and Tywardreath Highway gateway speed limit change are both approved and progressing.

**22/57 To receive reports from Parish Council Representatives**

### **22/62 Climate Change**

Cllr Hazeldean reported that it would be good to get more feedback on the proposal of a climate change plan. She was keen to hear how and if the Parish Council wanted to move this forward; it would also be good to get opinions from the wider public. It was suggested that an informal discussion may be a good first step prior to possibly setting up a Working Group and/or decisions at a formal council meeting. This could usefully happen following the October Planning Meeting on 6<sup>th</sup> October. Cllr Hughes also suggested that a Climate Change policy could be linked to the Tywardreath & Par NDP.
